

Purpose

If a corporation is applying for an extension of time to file Form 40, it may make an extension payment to prepay the tax that it expects to owe to avoid paying extension interest.

The extension payment may be made by check or through an electronic ACH credit transaction—see separate instructions on this page for the payment procedures under each method. Regardless of which method of payment is chosen, it must be made no later than the due date of the return (without extension).

Important. Do not use this voucher if:

- The extension payment is made electronically.
- The return is filed on or before the due date of the return (without extension).
- The balance due is going to be paid after the due date of the return (without extension).

This form may NOT be used by a corporation using Form 60, Small Business Corporation Income Tax Return, or by a corporation using Form 35, Financial Institution Tax.

To pay by check
